

REMARKS:

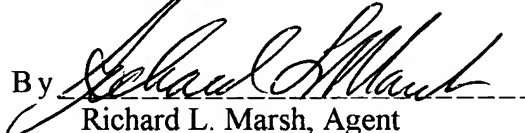

This amendment is for the purpose of amending Figs. 6 and 8b of the original Specification.

In review of the parent application for the concurrently filed amendment for continuation, Applicant has discovered one error on each drawing sheet not previously amended in the prosecution of previous applications. Applicant has amended Fig. 6 by deleting the numeral 34 and the lead line therefrom from the underneath side of the broken off section of the fiber optic cable and inserting the number 34 near the ends of the separated elements extending from the broken off section of the fiber optic cable. In Fig. 8A, Applicant has amended the drawing by deleting the numeral 277 and the lead line therefrom from the top edge of plate 99 and inserting the number 277 and lead line leading to the top edge of plate 50A. Applicant avers that no new matter has been added to the specification by these changes to the Figures as these changes are in concert with the recitations contained in the specification narrative.

In view of the above, an Action on the merits of this application, as amended, and an allowance thereof is respectfully requested.

Respectfully submitted,

Bahador Ghahramani
